Regulations (TPWD 2026-27)

Blue catfish: 25 blue + channel combined; no more than 5 may be 20 in or longer, and only 1 may be 30 in or longer.

Crappie: Statewide rule - 25 a day, 10-inch minimum.

Bluegill: no bag or length limit on sunfish.

Confirm current rules at tpwd.texas.gov before keeping fish.

TPWD ratings

Bluegill: Good (sunfish)

Blue catfish: Excellent (channel and blue catfish)

Crappie: Good

Eat-safe advisory (Texas DSHS)

None on file in the DSHS advisory layer. Check dshs.texas.gov/seafood for the current list.

Where the fish are this month

Crappie (Fall): Shallower again, usually no less than 10 ft. Docks hold fish in the top 10 ft (MDC).

Bluegill (Fall): Same deeper cover as late summer, plus shallower cover as water cools.

Blue catfish (Fall): Deeper in fall, following shad. On Texoma, blues returned from the river

in late September-October.
