Lone Star Cane Pole

Never guaranteed. Always honest.

Richland-Chambers Reservoir - fact sheet

Central Texas · Navarro, Freestone County · near Kerens / Corsicana · 41,356 acres

Printed November 13, 2026 4:39 pm

The water

Lots of timber up the Richland and Chambers creek arms; bridge crossings are good crappie spots; pondweed and scattered hydrilla. The old Trinity River levee makes an underwater ridge near the dam.

Level: 88.7% full, -2.90 ft vs. full pool (TWDB, Nov 13)

Water temperature: 66°F - estimated, ±5°F (Estimated from 14 days of air temperatures)

Bite outlook

Fri Nov 13: Crappie Fair Bluegill Fair Blue catfish Fair

Sat Nov 14: Crappie Fair Bluegill Fair Blue catfish Fair

Never guaranteed - an honest read of the weather and water. Full reasons at https://matthewcoley.site/canepole/index.php?lake=richland-chambers

Regulations (TPWD 2026-27)

Blue catfish: 25 blue + channel combined; no more than 5 may be 20 in or longer, and only 1 may be 30 in or longer.

Crappie: Statewide rule - 25 a day, 10-inch minimum.

Bluegill: no bag or length limit on sunfish.

Confirm current rules at tpwd.texas.gov before keeping fish.

TPWD ratings

Bluegill: Poor (sunfish)

Blue catfish: Excellent (catfish)

Crappie: Excellent

Eat-safe advisory (Texas DSHS)

None on file in the DSHS advisory layer. Check dshs.texas.gov/seafood for the current list.

Where the fish are this month

Crappie (Fall): Shallower again, usually no less than 10 ft. Docks hold fish in the top 10 ft (MDC).

Bluegill (Fall): Same deeper cover as late summer, plus shallower cover as water cools.

Blue catfish (Fall): Deeper in fall, following shad. On Texoma, blues returned from the river

in late September-October.
